Social Side of Washington

Washington, February 18 .- The Pan- England. American Conference which brought together nearly 1,000 delegates exclusive of the diplomatic and consular sive of the diplomatic and consular representatives of the twenty Latin-American countries in the Pan-American Union, was the great event of the week just closing at the national capital. The meeting was called to order by Hon. John Barret, director-general of the international Bureau of American Republics, and first aide to Washington hostesses, and spoken to by President Taft, the Secretary of State, the much-feted special ambassador from Mexico, and the most fluent English speaking members of the diplomatics corps from Latin-America.

It is splendid natural opportunities of its interior arangement, including the patio, an architectural feature borrowed from South and Central America and successfully adapted to Northern use. Beyond this there is ample provision of rooms for strictly bushness purposes, and here the diplomatic, education and commercial interests which bind the three Americas ever closer in international amity, are conserved, then dissiminated to the uttermost parts of the Western Hemisphere, to be harvested later in increased trade between the republics interested and a better understanding of the people thereof. Lunchons, dinners followed by informal theatre parties, slightseeing tours and not a little calling give a pleasing variety to the days of the conferces. Ainong the intellectual treats may be mentioned the "bird's-eye view lecture" on South America by Dr. Albert Hall, the lecture, with moving picture accompaniment, by Mrs. Harriet Chalmers Adams, a globe-trotter, and the first woman to be invited to address the National Geographic Society, and a characteristic speech by F. Hopkinson Smith.

While these things are occupying the attention of the diplomatic world at one end of the hall, the Canadian reciprocity bill was on the political stage at the Capitol, and as was to be expected, the fair sex was largely represented in the audiences listening to both discussions. whom the Congressional Club donned its very best clothes and company manners, and invited its most fashionable friends to tea on Friday afternoon. On Wednesday, the same honor was accorded Mrs Walter L. Irons, of Providence, R. I., who is spending some time with Mrs. Ernest W. Roberts, the newly elected president of the club. During the afternoon Mrs. Irons was induced to give a talk on Maeterlinck's "Bluc Bird," which brought the speaker much applause and many thanks. A similar ovation was given at the end of her talk on Maeterlinck, the Joy Prophet, at the Washington Club, an exclusive organization of resident and official folk.

The playhouse, Washington's newest club rendezvous for the smart set, was the scene of several interesting events within the week. At the first, Miss Helen Taft was the guest of honor, and Mr. and Mrs. Preston Gibson, the latter a granidaughter of Mrs. James McMillan, the hosts. The affair itself might have been called a "stunt party," as nearly all of the guests contributed a feature to the evening's entertainment. The program closed with a playlet from the pen of Mr. Gibson, acted by society belles and beaux—and very creditably, too, After supper, the host, with Miss Taft, led the cotilion, for which the favors were pretty conceits appropriate to the festival of St. Valentine.
